Phone +30 69488 34 920   Email nikitas.frantzeskakis@gmail.com   Web nikitasfr.com

WORK EXPERIENCE

2013-PRESENT   *Software Engineer, Web Developer,* **Discover the World,** Athens.

Designed and maintained MySQL database to measure the efficiency of a call-reservation platform for hotel bookings.

Built www.discovertheworld.gr company website using PHP5, Symfony2 Components (with custom Wordpress integration) and JavaScript.

2012-2013   Built **quinqle.com** Book recommendation engine (now offline)
Developed using PHP, Codeigniter, MySQL with a Single Page Application using Backbone.js and jQuery.

EDUCATION

2007-2011   **B.Sc. in Computer Science**

GPA 3.84/4.00

Empire State University, New York College

TECHNICAL SKILLS

Technologies and paradigms that I am familiar with include:

- Agile practices
- Object-oriented design
- MySQL database design
- JavaScript (ECMAScript), MV* frameworks, DOM manipulation and libraries like jQuery
- HTML, CSS and preprocessors
- MVC Web frameworks
- Version control systems like Git and Subversion

I also have experience with Java, PHP and a wide variety of tools and frameworks.

PROJECTS

2015   **Contact Manager App** – Single Page App built with BackboneJS.
Source-code available at: https://github.com/nikitasfrs/contactsapp

| 2011 | **Connected** – Interactive blogspot.com blog aggregator created as final year university project with Java, enterprise architecture patterns, MySQL, JavaScript and SVG. |
